# GETTING BACK TO TART PLAN.

Senate Committee Proposes Tariff Commission.

Radical Changes Submitted in Income Tax Clause.

Vote on Free Sugar Stated for Late This Afternoon.

SENATE, WASHINGTON, June 24.—[Exclusive Dispatch.] Direct from Washington, D. C., word that the Senate committee on Finance has submitted a bill to the Senate for consideration.

The income tax, under the new plan, would apply to individuals with income over \$2,000, but would exempt corporations, cities, towns, and counties, and insurance companies, under certain restrictions.

Changes in the administrative provisions include a new provision giving the President authority to remove and appoint the members of the Tariff Commission.

The proposed 5 per cent increase in tariff on goods brought from American ships, the anti-trust clause, and the provision giving the President authority to remove and appoint the members of the Tariff Commission.

It is clear today that some further changes might be made in the bill, but the revised version is expected to be ready for the Senate vote.

When you find that you are getting in the habit of worrying unnecessarily about your work; that the daily grind is wearing out your nerves; that you are bringing yourself to a sudden stop. You are facing a nervous breakdown. Don't panic. You can keep up through will power alone. Nervousness cannot be willed away. You must get rid of the cause. There is only one thing to do and that is to build up your blood.

Dr. Williams' Pink Pills enable the blood to carry to the weakened nerves the nourishment that they need and have proved of the greatest benefit in even severe nervous disorders.

Dr. Williams' Pink Pills are sold by all druggists at 50 cents per box or six boxes for \$2.50 or by the Dr. Williams' Medicine Company, Schenectady, N. Y.

It is the length of the coat. That, the principal speaker at the annual Swedish midsummer celebration here this afternoon, charged the Catholic church with undue activities in the political world, especially in regard to the election of Presidents and Congressmen.

It is estimated that over 15,000 people attended the celebration. It was held under the auspices of the Swedish American League, representing eight Swedish lodges of the city. The address of welcome was delivered by Mayor Prince. Lieut.-Gov. Burnquist was scheduled for an address, but he did not put in an appearance and nothing was heard from him.

This evening the crowd was entertained by an open air musical program and dancing at the Lincoln Park pavilion, where the celebration was held.

of a Southern Pacific MAIN LINE train as it crosses Gibraltar Acres, will note more actual development activity than can be seen at one time on any new subdivision.

HE WILL SEE—Thousands of fruit trees planted, growing—The quality of the soil as it lies fresh-turned, drinking the water from the ditches—Over two score buildings, mostly homes—Crews of planters; crews of men laying cement pipe for irrigating; scores making the pipe—

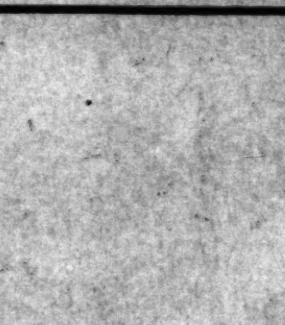

Now you are like everybody else—you want to buy land. The land is waiting for you. Gibraltar Acres are selling more rapidly than any other acreage. Why? Because the Soil, the Climate and the Water are PROVING this land by VISIBLE PRODUCTION—and because the terms are sensationally low—\$5 per acre, per month, for PLANTED land, with YOUR CHOICE of Olives, Oranges or Lemons (including payments on principal and interest) and \$20 down per acre.

## LIGHT FROM THE EAST ON THE LIVING ISSUES.

(BY FEDERAL WIRELESS LINE TO THE TIMES.)  
NEW YORK BUREAU OF THE TIMES, June 24.—[Special Dispatch.] Following editorial comments on topics of the hour are printed in eastern newspapers:  
"SERVILE GOVERNMENT."  
THE DIRECT PRIMARY.  
[New York Tribune, June 23:] Thanks to the Senate lobby quit the country has now a pretty clear idea of how the accelerators of the new school do their work. Senators and Representatives are no longer held up in the corridors of the Capitol or carried off to wine-suppers and poker parties. Instead of that their lives are made miserable by the pressure of an artificial public opinion, fomented by men who send prepaid telegraph messages out from Washington and set Chinese citizens back home to sign and file them.  
"The new game is better and surer than the old one. Besides, it is entirely within the law."  
The old lobby has adapted itself to changed conditions in politics. It has become the direct primary of "Invisible Government."  
SENATE TRIP IN CANADA.  
TO BUILD AT OTTAWA.  
[Washington Post, June 23:] The

favoritism." That evidently is in process of correction and the President's first law promises to establish another of equality with effect. For the "Invisible Empire" of capital is to be substituted the autocracy of labor, which was itself above the law in a manner surpassing anything that the boldest capitalist ever dared.  
After his signature, the President in vain will protest to them that honest business has nothing to fear from the new freedom. When the harvest is gathered the President increasingly and unceasingly will regret that he lacked the character shown by his predecessor. Mr. Taft's veto is familiar, but it ought not to be forgotten that he had the courage to tell labor to its face what he said to Congress.  
KAISER'S MESSAGE.  
IT REFLECTS PEACE.  
[Baltimore American, June 23:] In his jubilee message to the German people the Kaiser exults over the twenty-five years of peace that have marked his reign and hopes for the continuance of accord with the nations. He is rejoiced over the various charitable foundations that have been established to mark the rounding out of twenty-five years of his reign. He pledges himself to do the will of the Almighty as long as he has the strength.  
The message is in the compact and direct and forceful style of the exceedingly effective Emperor, and the world is glad to note its tenor. Yet the fact of entertaining such sentiments with regard to peace as he has expressed, does not lead him to seek a diminution of armament.  
Yet the same American advocates

who salute the Kaiser as the leading peace apostle of the times and ignore the enormous armament of the War Lord will come back home and fight against this country building up a navy that will be strong enough to do for it a vastly more creditable work than is held in contemplation for the army of the German Emperor.  
TURN DOWN SULZER.  
New York Assembly Defeats Governor's Direct Primary Bill by Overwhelming Majority.  
[BY A. P. MONT WIRE TO THE TIMES.] ALBANY (N.Y.) June 24.—The Assembly defeated Governor Sulzer's direct primary bill tonight by a vote of 54 to 32.  
PICKS CABINET FOR PETER.  
King of Serbia Entrusts Premier Who Has Resigned With Its Entire Reconstruction.  
[BY CABLE AND A. P. TO THE TIMES.] BELGRADE (Serbia) June 24.—King Peter has entrusted M. Pasic, the Premier, who recently resigned, with the reconstruction of the Cabinet. Only the holders of the portfolios of war and justice will be continued in the new Cabinet.  
This victory of Premier Pasic is taken in influential circles here to mean that Serbia is ready to accept arbitration in the Balkan dispute, in spite of the activities of her army and that war will thus be averted.  
Do not neglect your family. Chamberlain's Colic, Cholera and Diarrhoea Remedy is sure to be needed when least expected.—[Advertisement.]

HEALTH STOPS "HIKE."  
Septuagenarian Rival of Weston, Overcome on Way From New York to Minneapolis, Is Dying.  
[BY A. P. MONT WIRE TO THE TIMES.] STAMFORD (Conn.) June 24.—John Ennis, 70 years old, who started out some days ago to defeat Edward Payson Weston, the veteran walker, on a "hike" from New York to Minneapolis, is seriously ill at his home here, and physicians fear that he may not recover. Ennis was several miles ahead of Weston when he was taken ill near Millville, Pa.  
ADOPT TWO CENT RATE.  
Railroads in Missouri Will Not Wait for United States Supreme Court Decision.  
[BY A. P. MONT WIRE TO THE TIMES.] KANSAS CITY (Mo.) June 24.—Railroads in Missouri affected by the recent decision of the United States Supreme Court upholding the Missouri two-cent passenger and maximum freight rate laws, will without waiting for the mandate of the Supreme Court, put the new rates in force "at the earliest practical date," according to an announcement by attorneys representing the railroads, after a meeting here today. The attorneys said the new rates, both passenger and freight, probably would be in effect by July 1.  
Cure for Stomach Disorders.  
Disorders of the stomach may be avoided by the use of Chamberlain's Tablets. Many very remarkable cures have been effected by these tablets.—[Advertisement.]

## A World-Wide Beverage

June Made the Universal Beverage. In New Shaped With Be-Brings Health and Energy Against Fatigue.

Served Either Hot or Cold.  
Travelers in South America are invariably impressed with the almost universal drinking of June Mate (pronounced mat-lay) in preference to coffee, tea, chocolate, beer or any other beverage.

It is frequently remarked that no matter what country the party comes from, whether it be Russia, Sweden, France, Italy, Spain, Germany or America—and no matter what beverage he has been accustomed to in his native land, he quickly learns to drink June Mate and joins the millions who have already adopted this fragrant and wholesome cup as their chosen one.  
Not only is this the family beverage with breakfast, lunch, dinner and supper, but it is the refreshment for all times of the day or evening. It is the cup of cheer for the weary traveler, the fashionable drink at social functions and the one draught allowed the invalid.  
We in North America, with our tastes so divided between nerve-depleting coffee or tea and their watery and unsatisfying substitutes, can hardly understand how any one beverage can be so universally and unanimously preferred as is June Mate. Practically every medical authority without exception concedes June Mate first place in the beverage of the world, not only in its healthfulness, but also in its sustaining powers, its value as a food, its delicious, thirst-quenching qualities.  
You will have to drink June Mate to appreciate the entire truthfulness of all the claims made for it.

## WESTERN GIRLS LAUD CHICAGO.

FAIL TO FIND "AMERICAN SPIRIT" IN NEW YORK.

Declare Men of Windy City More Polite than Those of Gotham—Pro-nounce Eastern Styles Immature. Expect to Find Holy Grail on Pacific Coast.

(BY FEDERAL WIRELESS LINE TO THE TIMES.) CHICAGO BUREAU OF THE TIMES, June 24.—[Special Dispatch.] "We adore Chicago."  
"Chicago men are infinitely more polite than New York men," said the girls of the West. "The whole atmosphere of Chicago is delightful. It lacks that terrible scurrying effect one gets in New York."  
"Gladly! Well, I'll just say this. Eastern women, particularly New York women, seem to have lost all sense of modesty or self-respect. We saw things in New York that we could hardly believe were done in the way of clothes. Chicago is much more respectable."  
"Where is the true American spirit?"  
Nine girls from the West—school teachers and farmers' daughters—are in Chicago today after groping blindly in the East for an answer to this question. They concluded, before seeing Chicago, that the legendary Sir Launcelot's convictions were about right. Like the poetic knight who explored the world for the Holy Grail, they have about decided they will find what they seek in Chicago.  
In addition to the search for the "American Spirit" the party visited Philadelphia for the purpose of gaining the consent of the city government to the removal of the famous liberty bell to the Pacific Coast for a brief stay. They will remain in Chicago for two days, sight-seeing.  
"We have been all through the East and now we are going back, firm in the belief that the western spirit is the true American spirit," said Mrs. G. L. Barkley, superintendent of public instruction in Kittitas county, Wash.

## COLONEL'S GOING AWAY.

Will Tell South America How to Run Itself, as He Did When He Amused the Sorbonne.  
[BY A. P. MONT WIRE TO THE TIMES.] NEW YORK, June 24.—Theodore Roosevelt will leave New York during the first week of October next to deliver a series of addresses in the Argentine Republic on subjects of international social interest. Incidentally he will visit Brazil and Chile and may make a trip into the tropical interior of the continent.  
These details of Mr. Roosevelt's trip were announced in his behalf today, amplifying a previous brief statement that such a trip was contemplated. He goes to Argentina at the request of the Argentine government, the address he has in mind will be somewhat similar in character to those he gave at the Sorbonne in Paris three years ago.

## FEARS TAN AND FEATHERS.

Old Soldier Attempts Suicide. Cause of Threats Made Unknown. Married Young Girl.  
[BY FEDERAL WIRELESS LINE TO THE TIMES.] CHICAGO BUREAU OF THE TIMES, June 24.—[Special Dispatch.] Threats that he would be tarred and feathered unless he married a 17-year-old girl, caused James McMurtry, 48 years old, an inmate of the Old Soldiers Home in Milwaukee, to attempt to end his life by cutting his throat with a pocket knife at Barrens and North Central Park avenues today, according to his story to the Irving Park police.

## SOLVE MYSTERY OF GIRL'S DEATH.

Hint at Foul Play in Death of Maryland Woman.

Body Believed to Have Been Carried Into Offense.

## Three Persons Found She Passed Away.

(BY A. P. MONT WIRE TO THE TIMES.) BALTIMORE (Md.) June 24.—[Special Dispatch.] Authorities to keep searching for the body of a woman who was found dead in a room at the Home Gas Company building. It is now known that the woman did not die of poison, as was thought, but from an unknown cause.  
That the young woman was sitting at her desk, as she appeared to be, when she died, probably she was in the office and placed at the position in which she was found. It is thought that the woman was very pale when she died.  
Harold Smith, the manager of the gas company, was glad to be in the office all day, leaving there at 4:15 p.m. when he was told that the woman had died.  
Mrs. Elmer Smith, a sister of the woman, was in the office before she died. They said that Miss Smith had been sitting at her desk all day.

## AMERICAN SUGAR DECLARES ACT DISCLOSED.

Rights Guaranteed Under Constitution and Federal Statute. His Business and That of Others.

## TOPEKA (Kan.) June 24.

First time since its enactment the United States Supreme Court has as a model for its decision in an earlier case. The decision in the earlier case was in favor of the American Sugar Company, which had been sued by the United States for violating the sugar act of 1906. The American Sugar Company had been found guilty of violating the act, but the Supreme Court had reversed the decision, holding that the act was unconstitutional. ### RAILROAD HEADS DESIGN.

President and General Manager of Mexican National Railway System find John Too Overcast.

MEXICO CITY, June 22.—(By A. P. to the Times.)—The Mexican National Railway system, resigned today. Their successors have not been announced. It is understood that the motive for the resignations lay in the financial difficulties which the system has been forced to face, as well as difficulties of operating in a rebel-infested country, but it is also believed that the tendency of the government commissions to interfere in the operation of the railways played a part in determining this action. It is reported that a majority of the Americans in the service will follow their chiefs.

The War Department announced that it will devote all its energies to opening the National Railway, but that it probably will not take steps before repairs to the line are made.

Fearing an attack, the authorities at Aguas Calientes have placed that city practically under martial law. Posters have been fixed on the street corners stating the hours citizens must be on the streets and announcing that otherwise they will be shot if without the countermeasures. Minute instructions are given the public as to what to do in case of attack.

### GRIDS YIELD TO RUSSIA.

Greeks stand by Belgrade Government, which is worried by Cabinet crisis.

(By Cable and A. P. to the Times.) LONDON, June 22.—It is reported from Sofia that Serbia has yielded to the observations of Russia and the powers to accept Russian arbitration on the basis of the antebellum treaty. This has not been confirmed from Belgrade, where the Cabinet crisis, which arose through the ministers of war and justice refusing to consent to such a course, still continues. It is rumored that a new Cabinet will be formed by a Protopopu, Minister of the Interior in the previous Cabinet, who is strongly anti-Bulgarian.

Greece takes a determined stand by the side of Serbia. In reply to Russia's request that she should intervene at Belgrade in favor of peace, Greece points out that she is not a party to the Serbo-Bulgarian treaty, which was arranged unknown to her.

## OJEDA IS VICTOR

Declare He Beat Carr With Smaller Force

### Sonora Governor Leads His Men to Beat Him Back

#### Pancho Villa on His Way to Capture Juarez

(By A. P. to the Times.) MEXICO CITY, June 22.—(Exclusive Dispatch.)—The federal government today announced that Ojeda was victorious in the battle of Orizaba, and that he had beaten Carr with a smaller force.

The battle of Orizaba was fought on June 21st, and it was the first battle of the revolution since the fall of Carr. Ojeda, who is a member of the federal army, led a force of 1,000 men to Orizaba, and he defeated Carr's force of 2,000 men. Carr's force was defeated, and he fled to Juarez.

### WOULD EMULATE McNAMARA.

Ex-Mayor of Richmond Moves to Place Richmonds in Pipes Leading to Newspaper Building.

(By Direct Wire to the Times.) RICHMOND (Va.) June 22.—(Exclusive Dispatch.) Carleton McCarthy, former Mayor of Richmond, gave a sensational turn to the typhoid fever epidemic controversy yesterday, when at the session of the administrative board, of which he is a member, and which board controls the water system of the city, he took the floor on a point of personal privilege, and termed articles in yesterday's Times-Dispatch relative to the board's delay in acting on the water question as deliberate lies.

## SHIPLOAD OF FARMERS BOUND FOR THE WEST.

(By Direct Wire to the Times.)

NEW YORK BUREAU OF THE TIMES, June 22.—(Exclusive Dispatch.) With the arrival here today of the steamship Caprice of the Cunard line from Australia and Italy, there came 1371 farmers and their families, all from Austria and Hungary and all agriculturists by heritage and experience. An unusual proportion of third-class immigrants who came over today were children, there being 176 of these, while some of the families numbered as many as seven members. Nearly every family is bound for the West, where the heads of the families will take up farming and become American citizens.

## IRREGULARITY IS INFERRED.

Tax Collector Taggart Under City Auditor's Fire.

Books Show Erasures and a Shortage, Is Report.

Criticized Official Writes Check for Latter.

The annual report of City Auditor Myers, submitted yesterday to Mayor Alexander and the City Council, infers irregularities in the office of Tax Collector Clarence M. Taggart, and contains this item:

"To amount unaccounted for by City Tax Collector, as per Auditor's check, \$449.50."

Of this sum the Auditor has allowed \$122.75 claimed by the Tax Collector as not properly chargeable against him, and Taggart has handed his check, according to the Auditor, to the City Treasurer for \$326.75 to cover the balance.

The shortage is declared by the Auditor to be caused by erasures of penalties entered in the books of the Collector's office and in the substitution of dates of alleged payment prior to the day upon which the taxes became delinquent.

In illustration Deputy Lacey and Jones of the Auditor's department, exhibited what purports to be original tax receipt No. 28,189, calling for a tax payment of \$194.21, together with the amount appears as \$164.21, which is the total of the assessment less the penalties.

The book shows evidence of what appears to have been erasures, and the stub, also a part of the exhibit, fails to tally with the original receipt.

## GRAHAM QUITTS; REPORT FILED.

Last Act Interred in Water Board's Archives.

New Rate Schedule Involving Deep Revenue Cut.

Commission Sounds Alarm of a Summer Shortage.

R. C. Graham terminated his connection with the Board of Public Service Commissioners yesterday. As his swan song he proffered his report as chairman of the committee appointed some weeks ago to make recommendation on a "just and equitable readjustment of water rates." The report was accepted by the board and ordered filed. In other words, it was relegated to the archives, from which it may be rescued in case the succeeding board members see fit.

"I am sorry to leave," naively remarked Graham, following his announcement to the board that his resignation had been placed in the hands of the Mayor, effective today. "I'll go north to attend the meeting of the State Conservation Commission, then take a thirty days' vacation."

President Henderson, whose connection with the board is certain to be terminated shortly, repeated yesterday that he had told Mayor-elect Rose that his resignation was forthcoming any time he desired.

Graham's resignation and Del Valle's absence would leave the board without a quorum to do business, and I have been asked to remain with the board until a quorum is assured by the appointment of a new member, stated Henderson yesterday.

Recommendations made by the Water Rate Committee, composed of Chief Engineer Mulholland, Commissioner Graham Talbot, Fay Barburn, with Henderson as ex-officio member, revolved around the establishment of a two-rate system and the fixing of a maximum elevation to which water

might be supplied at the minimum rate.

NEW RATE SCHEDULE.

In brief they were:

Minimum meter rate, 50 cents per month for 500 feet of water or less; the rate to those using water in excess of 500 gallons per month to be 7 cents per hundred cubic feet, except that the minimum at present shall be 75 cents.

Establishment of the maximum elevation to which water shall be delivered at the height to which practicable to deliver water by gravity flow from the present reservoirs, the Chief Engineer to decide the limits in the several districts.

A higher rate for those who have not contributed.

Giving those now paying the higher rate and those who may desire to secure service in the future the alternative of either paying the higher rate or the assessment charge per front foot, thereby securing the benefit of the lower rate.

The San Pedro rate was mentioned in the report as approximately what the higher rate charged by the city should be if the two-rate system is adopted, though the committee disclaimed any desire to make a definite recommendation in this regard.

"It is not practicable at this time to make a general reduction in the water rate," read the committee's report in part, "on account of the extraordinary expense during the past year and extensive improvement that will have to be made during the coming year. But there are a large number of consumers who use a very

## MANY TEACHERS QUIT SCHOOLS TO MARRY.

A pretty teacher of the Normandie-avenue school, who is one of many to celebrate commencement week in the schools by succumbing to a carmine wail much older than books or slates.

THE little trouble-maker with a bowgun has nearly busted the arrow trust in High-Brow alley! Thirty times and five did his arrow fly, and thirty times and five was a schoolmarishly boom neatly skewered on his curly little moustache. Due to his lord high chubbiness' marksmanship there will be thirty-five vacant places in the school department next year, the weddings to come off this summer.

Wearing of the cork-corner fusers and the pink-tea triflers, His Dimples disguised himself one morning in a cap and gown, and took a walk among the headacha factories. When it was discovered who he was it caused an awful commotion. What was his way was his scholarship. Scorning Harvey's theories he upset every pedagogical hypothesis regarding the functions of the heart; he declared that "two times one are one," and proved it, too. Anyhow, there are several pretty young school-maids whom you can't get to deny it.

He was extremely democratic. He invaded every department of the school system. Miss Mary B. Sherwood, principal of Normandie-avenue school, and Miss Julia W. Murray, charming

and talented teacher of art at Polytechnic High, will wed T. F. Knight, a young stock broker. Mrs. Knight will continue her study of art after marriage.

Miss Mary V. Hurley, fourth-grade teacher at Castelar-street school, and one of the most popular teachers in that department, whose loss teachers and pupils will much regret, will wed Thomas C. Neely, a business man.

Miss Bessie Eastman, pretty and pleasing little lady, who has been teaching the first-grade idea to shoot out at Thirty-sixth-street school during the past year, will resign to become mistress of the home of Joseph Long, a Southern California oil man. They will probably reside in Los Angeles.

Miss Jeannette McGorray, an attractive young woman who has had charge of the fifth grade at Normandie-avenue school, will leave for the East Monday next. It is rumored she may never return, at least not if she gets as far as New York. However, she herself declares that she will, anyhow until Christmas.

Among the many others who will wed this summer are Miss Lillian Lockett of Grand-avenue school, Miss Josephine Bowen, Miss Mary B. Sherwood of Normandie-avenue school, and Miss Faye Faine.

Solid Front!

SIXTY-TWO MILES OF BUILDING IN A YEAR.

A SOLID frontage of more than sixty-two miles of buildings erected under authority of 17,566 permits at a valuation of \$12,415,525—an increase of 29 per cent over the preceding year—is what Los Angeles accomplished during the year ended last Saturday, according to a report filed yesterday by Chief Inspector of Buildings Backus.

The valuation shows an increase of \$7,481,927 and 3646 permits over the preceding year and tells better than volume the marvelous story of the world's wonder city. Sixty-two miles of building would line a highway from Los Angeles to Riverside, or build a street on two sides of a vacant lot from the city to Fontana.

The total amount of fees received by the department was \$77,712.00. Expenditures were \$1,157,000. Two hundred thousand inspections were made during the year. A \$15,000 comfort station is about to be built at the junction of Spring and Main streets at Ninth.

The inspector says his office is greatly congested and he recommends the establishment of a bureau of construction and an amended building ordinance to cover defects in the present law.

In Cuba.

REWEDES FIRST HUSBAND AFTER MANY YEARS.

NEWS comes from Havana of the marriage of Mrs. A. A. Harris of Los Angeles to F. N. Fredericks, who holds a responsible position with the United States government at the Cuban capital.

Mrs. Harris and Fredericks were married in their younger days, but Mrs. Harris obtained a divorce from him twenty-five years ago and married Harris. During this long period Fredericks has kept posted as to the residence of his first wife. She has been a widow for nine years. Some months ago a letter was received from Fredericks which led up to the second marriage of the same couple.

Mrs. Harris, now Mrs. Fredericks, is well known in this city. She has been for several years editing a suburban paper. For a year or two

she was one of the vice-presidents of the Southern California Editorial Association. Mr. and Mrs. Fredericks are each about 50 years of age.

Mr. and Mrs. Fredericks were recent guests at the home of Mr. and Mrs. Howard, near Havana. The Howards were well-known residents of Pomona and Corona in the early days, but have been in Cuba nearly fifteen years.

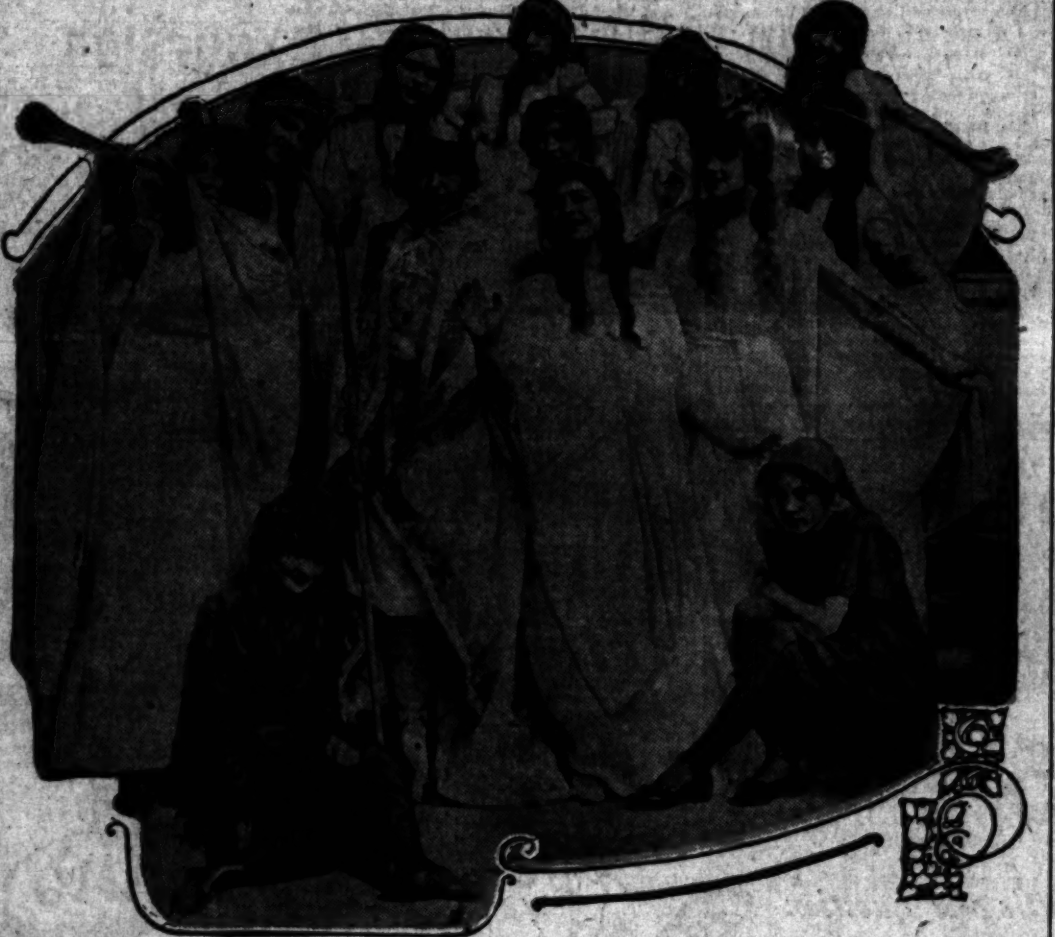

REALTY BOARD MEETING.

Dr. C. W. Hubbard, chairman of the day for the Los Angeles Realty Board luncheon to be held at Christopher's, tomorrow noon, announces a programme as follows: M. F. Zimmerman, "Boasting of California"; D. C. Collier, "President Panama-California Exposition, The Importance of the Exposition of 1915"; Douglas White, "Industrial agent San Luis National"; "Co-operation of the Railroads and Real Estate Men."

**JEVNE'S Tafilet Dates**

—a rare oriental delicacy!

The "Tafilet" is a large, meaty date with an anise flavor and is conceded to be the choicest variety of date produced in any part of the world, representing as it does the result of some five thousand years' study of date culture by the Oriental growers in the Sahara.

Tafilet, you know, is a large oasis in the center of the Moroccan Sahara desert and is so difficult of access to Europeans that the fruit of these famous palms is considered as an unusual and extremely rare delicacy even in France and England.

The small importation which we have obtained in Morocco the first year offered in the United States and has been brought direct to Los Angeles. The dates are washed, sterilized and stuffed with the finest nut meats—a choice pecan and blanched almond in each date.

There is nothing "just as good" as Newber's Herpicide. Some dealers will even go so far as to tell you they have something better.

That dealer has an axe to grind. You can't stop his grinning, but you can prevent him grinding it at your expense.

There is one sure, swift way to do it. Go where you can get what you ask for. You wouldn't be obliged to do this very often, as fortunately the majority of druggists are honest and conscientious.

Newber's Herpicide has been so long and favorably known as "the original dandruff destroyer" that no one should be deceived.

When you need a hair remedy, you don't want one which merely promises to kill the dandruff germ and prevent the hair from falling.

You want one that will do it. The hair becomes soft and lustrous. There is no itching and no dandruff where formerly the hair was dull and brittle.

Applications of this wonderful prophylactic may be obtained at the best barber shops and hairdressing parlors. Send 12c coin for sample of Herpicide to The Herpicide Co., P.O. Box 2, Detroit, Mich. For a nice sample of Herpicide send a booklet telling all about it. It is not to be sent to all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

brief ceremonies will be held to commemorate the event. A marble slab is to be erected on the roadside near Mountain Home stream. Moving pictures will be taken of the crowd, and they will be exhibited over California and then throughout the United States. It is planned to make the road a scenic highway, one of the great scenic boulevards to Bear Valley, a project that has been close to the hearts of Redlands people many years. The road is not so much for the manual labor that will be accomplished as to demonstrate the future of the Redlands road to give impetus to the efforts to procure its speedy construction.

Navy, running from Sherman Way to Bonnie Brase avenue, on 1 street, and will erect thereon a beautiful home, to cost between \$10,000 and \$12,000. The place will be made one of the most beautiful homes in the suburban section of Los Angeles. The grounds will be laid out and set to the most ornamental trees and shrubs. It will be made a fitting setting to the edifice which will become the permanent residence of Mr. Whitsett. The plans for the house have been already prepared, and contracts will be let and construction started as soon as the necessary returns from the business trip.

"I have heard nothing of any discoveries made at the Terkos observatory, but we have instruments here with which the sun may be seen as well as at any other observatory, and we have been working on the sun right along. There has been nothing unusual."

The report that the disappearance of spots on the sun is responsible for recently comparatively cold June weather was pooch-pooched by Ellershausen.

"That has nothing to do with atmospheric conditions," he said. "The weather is not connected with the sun. It has to do with the weather than the finding of a pebble in the street."

Moretown, Vermont.—"I was troubled with pains and irregularities for sixteen years, and at last, weak and nervous. When I would lie down it would seem as if I was going right down out of sight into some dark hole, and the windows and the walls had faces that would peep out at me, and when I was out of doors it would seem as if something was going to happen. My blood was poor, my circulation was so bad I would be like a dead person at times. I had female weakness badly, my abdomen was sore and I had awful pains.

"I took Lydia E. Pinkham's Vegetable Compound and used the Sassafras Wash and they certainly did wonders for me. My troubles disappeared and I am able to work hard every day."—Mrs. W. F. SAWYER, River View Farm, Moretown, Vermont.

**Another Case.**

Gifford, Iowa.—"I was troubled with female weakness, also with displacement. I had very severe and steady headache, also pain in back and was very thin and tired all the time. I commenced taking Lydia E. Pinkham's Vegetable Compound and I am cured of these troubles. I cannot praise your medicine too highly."—Mrs. E. A. MILLER, Gifford, Iowa.

**Three Hundred Redlands People Will Take Pick and Shovel and Make Themself Useful.**

**REDLANDS, June 18.**—About 300 leading citizens, doctors, lawyers, university professors, preachers, business men, near-millionaires, most of whom never had the experience of raising a billy by manual labor, will leave the city tomorrow to go up Mill Creek road with pick, shovels and rakes to put the thoroughfare in condition for summer travel. The start will be made at 6 o'clock in the morning in automobiles. Moving pictures will be taken of the crowd, and they will be exhibited over California and then throughout the United States. The project was planned by the Mill Creek road a part of a great scenic boulevard to Bear Valley, a project that has been clack to the heels of the city for many years. The turnout tomorrow is not so much for the manual labor that will be required to build the road, but for the interest of the people in the road and to give impetus to the efforts to procure its speedy construction.

**BAD DAY FOR S.S.**

S. S. Childs, a Los Angeles visitor, took a dip in the surf today, but getting out of the water he was so overwhelmed by a huge breaker, which knocked his false teeth out of his mouth, and drove him ashore in an unconscious condition. When he recovered he instituted a search for his molars without success, and going to the dentist he was told that the door locked, and in gaining an entrance broke the lock. In addition to the loss of his teeth, a bad case of sunburn, which will cost him \$15 for a new set of teeth.

**PLANE FINE HOME.**

**VAN NUYE, June 24.**—Mr. P. Whitte, general manager of the Los Angeles Suburban Homes Company, has just purchased five acres in Van Nuys, and has arranged to build a home on Bonnie Bee avenue, on I street, and will erect thereon a beautiful home, to cost between \$10,000 and \$12,000. The place will be made one of the most beautiful homes in the suburban section of Los Angeles. The place will be planted with many fruit and ornamental trees, and will be made a fitting setting to the edifice which will become the permanent residence of Mr. Whitte. The plans for the new structure have already been prepared, and contracts will be let for construction and will be soon completed. Mr. Whitte returns from the East where he went yesterday on a business trip.

PASADENA, June 16.—The observatory at Mt. Wilson, which is the best equipped for observation of the sun of any observatory in the world, there phenomena of the sun are studied daily, say that not only have they not been surprised at any discovery made at the Yerkes observatory, but have of late noted nothing extraordinary about the sun.

Prof. George E. Hale, who has charge of the observatory, is now in St. Petersburg, where he went to attend a meeting of the International Academy of Science in the East. In his absence, Prof. S. Ellerman, who is temporarily in charge of the work at the observatory, says that there is nothing new in the sun.

There have been practically no sun spots for the last two years. We are waiting for them and almost pray for them. There is a season for sun spots just as, here in southern California, there is a season for rain. Some years it rains earlier than others. So it is with the sun spots. We have been looking for them daily, but the absence of them is not unusual.

He has heard nothing of any discovery made at the Yerkes observatory, but we have instruments here for finding out the temperature of the sun as well as at any other observatory, and we have been working on the sun night along. There has been nothing new.

The report that the disappearance of spots on the sun is responsible for recently comparatively cold June weather was poor-pooped by Ellerman.

"That has nothing to do with it. The sun has nothing to do with the weather. The finding of a sun spot has nothing much to do with the weather than the finding of a pebble in the street."
